P12/24 START TRUCK EVO MAX

12 V and 24 V starting aid device for professional use

Optimized, powerful jump starts for all common cars and trucks. Solid construction, easy and safe handling including reverse polarity protection with optical and acoustic warning.

Can also be used as power supply for mobile devices such as electric tools (with converter also supply of 230 V devices possible).

NEW: 2 x 25 Ah AGM batteries, built-in fuse in clamp

CHARACTERISTICS

Construction: Solid housing, high-quality copper cable incl. holder

Testing Function: Voltage test of the battery with integrated digital voltmeter

Protection: 12 V/24 V off switch, reverse polarity protection including optical and acoustic warning

Clamps: Exchangeable, fully insulated brass clamps with integrated fuse

Display: Large LCD display

Battery: 2 x 25 Ah AGM high performance batteries, exchangeable

Charging: automatic 4 A charger

Accessories: Charging cable for car cigarette lighter input (12V DC), automatic charger

APPLICATION

Professional Range

12/24 V: Standard, Ca, Start-Stop (EFB, AGM), Gel

TECHNICAL DATA

Type:	Booster P12/24 Start Truck EVO MAX
Nominal Voltage [V]:	12 / 24
Cranking Current [A (EN)]:	2.340 / 1.170
Peak Current [A (EN)]:	6.200 / 3.100
Battery Capacity:	2 x 25 Ah AGM
Charger:	230 V AC / 12V DC, 4 A
Dimension [cm]:	44 x 30 x 23
Weight [kg]:	22,5
Power Cable [cm]:	190 (Ø 50 mm ²)
